Veterans Affairs Canada

We just need a bit more information to properly submit your request for authorization.

For veteran patients: Would you like Tilray to seek approval from Veterans Affairs Canada (VAC) for medical cannabis reimbursement coverage on your behalf?

Yes

No

Has the patient registered as a VAC patient with another Licensed Producer?

Yes

No

Condition/Ailment

VAC requires Tilray to report the specific condition on which your coverage is based.

VAC K Number

Provide your VAC K number if you know it.

I have selected Tilray to seek approval from Veterans Affairs Canada (VAC) for reimbursement, and authorize them to send the VAC a complete copy of the application and to bill the VAC directly for the cost of the patient's medical cannabis.

IMPORTANT: Tilray does not guarantee VAC approval. Once your Tilray application is approved, and until VAC approves your account, you will be able to make purchases with your own credit card. Once VAC approves your account they will cover the costs of your medicinal cannabis, up to the amount covered. Products other than medicinal cannabis are not eligible for VAC reimbursement and you will be responsible for payment for such items.
